

LIT FOCUS LECTURES

SCIENCE IN A NUTSHELL

19 May 2021
13.00
online via zoom

It started in Linz - A 20,000 - mile academic journey

The Marie Skłodowska-Curie actions support researchers at all stages of their careers and working across all disciplines. For innovative training to enhance employability and career development.

Thomas E Winkler
(MSCA Postdoc 2018-2020)

Organs-on-Chips: the better lab rats?

Research like drug development needs stand-in models for actual humans, but animals (or cells in plastic dishes) make poor substitutes. Combining micro-engineered "Chips" with stem cell technology may be the solution.

Thomas E Winkler
(KTH Royal Institute of Technology)

MSCAs at JKU

Bernadett Stadler - MSCA PhD 2018-2021
(Industrial Mathematics Institute)

Michael Krieger - MSCA Host 2022-2024
(Institute of Fluid Mechanics and Heat Transfer)

Monika Blaimschein
(Research Service and Knowledge Transfer)

Sonja Falkner-Matzinger
(International Welcome Center)

Upcoming LIT Lecture:
15 September 2021 | 13.00
