Core Facility Cytometry

Contents:

- Nomenclature booking calendar
- Update Website
- Implementation of Requirements Notification

Nomenclature booking calendar

Device usage is automatically read out *via* the booking calendar for statistical purposes. To simplify the process, we would ask you to adhere to the following nomenclature:

AG xyz / initials (e.g. AG Schmitt / MMAI)

Update Website

We have updated our website! In addition to the devices and their configurations as well as the services of the Core Facility, you will now find the following sections:

- **Useful documents (e.g. preparing cells for sorting)**
- **Links to e-learning resources and webinars**
- **Newsletters**

The content is regularly updated and expanded - it's worth taking a look!

Implementation of Requirements Notification

The "Requirements Notification" form has been implemented for the use of core facility services at the Center for Medical Research (CMR). It defines the procedure for the service and estimates the costs and time required (**ATTENTION**: no costs are currently incurred).

If a service (e.g. sorting, training) is requested by the Core Facility, the "Notification of requirements" form must be completed and signed in advance.

- ⇒ Service is requested by user *via* email
- ⇒ Core Facility provides the partially pre-filled form to the user *via* email
- ⇒ Form should be completed, signed and returned to CF *via* email
- ⇒ Voilà :)

The services of the Core Facility are available throughout the summer without any restrictions — feel free to reach out!

ZMF-CF-Zytometrie@jku.at

We wish you a relaxing summer!
